DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Heidi A. Dare (50,775) on 05/16/2007.

IN THE CLAIMS

Amended claims 7 and 8 as follows:

7. The medical system of claim 6 5, wherein the upper magnet is bullet-shaped and the lower magnet comprises a bullet-shaped recess.
8. The medical system of claim 6 5, wherein the upper magnet comprises a bullet-shaped recess and the lower magnet is bullet-shaped.

Allowable Subject Matter

Claims 5 and 7-18 are allowed over the prior art of record as amended in this examiner's amendment.

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose either singly or in combination the claimed medical device for connecting upper and lower esophageal sacs with first and second elongate members which have upper and lower magnetic ends with the upper magnetic end having a constant magnetic force and the

two magnets having a passageway therethrough with each surface having a recessed or protruding surface for connection with the two magnets operable to connect and form a continuous passageway between the upper and lower magnet to join an upper and lower esophageal sacs.

The closest prior art of record is Hendren, III (3,986,493) and Kane et al. (6,985,776), however these references do not disclose the device as claimed by Applicant.

Regarding claims 5 and 18, the closest prior art of record fails to teach among all the limitations the catheter esophageal connection system with the magnet passageways with connection forming features to allow for coupling of the two catheters.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
